

Crooksville eAcademy

Your education...your way

What is the Crooksville eAcademy?

The Crooksville eAcademy is a new, fully online program serving students in grades K-12 in the Crooksville Exempted Village School District.

Students enrolled in the Crooksville eAcademy have the opportunity to receive a more individualized approach to education. In place of attending the traditional classroom, eAcademy students will be able to take online courses at their own pace while working at home.

The courses that eAcademy students take will be approved and monitored by a district administrator. The curriculum taken will meet all state, local and common core standards. Because work is monitored locally, all efforts will be made to provide support to help ensure student success.
