

# Week 1

## Video Production Blizzard/Calamity Bags

### *Daily Video Blog (3 posts weekly):*

Post a 30 second video (at least three times a week for credit!) to Google Classroom updating our class with how you are doing and how the recent viral pandemic has affected you and your family. Please remember that this is still a classroom activity and rules for the classroom must apply here as well. No obscene language or content gang! I want this activity to be a chance for us all to stay connected during this uncertain time. Feel free to post questions or concerns of any of your classes in this blog as well.

Should you not have the ability to film and post this assignment, a written log is an option. Simply type a paragraph response (5 sentence minimum!) instead of filming, using the directions listed above. You can either post the response to Google Classroom, create a Google Doc and share, or write it out by hand.

# Week 2

## Video Production Blizzard/Calamity Bags

*Video / Photo collage of **WHAT MAKES YOU SMILE**.* Might seem corny or cheesy, but we all need to take a moment from time to time to share what brings us all happiness in our lives. Let's do just that with this weekly assignment. During the week, gather at least 3 images or video clips of different things in your life that brings you joy. It could be a parent, sibling, pet, or maybe your favorite book or game. Caption the image with your rationale (1-2 sentences will do) and post it in the same fashion as the assignment above.

Should you not have the ability to film and post this assignment, a written log is an option. Simply type a paragraph response (5 sentence minimum!) instead of filming, using the directions listed above. You can either post the response to Google Classroom, create a Google Doc and share, or write it out by hand.
