Name: _____

Life Science

Living or Nonliving

Animals, plants, and people are living. They need three things to survive: food, water, and air. Nonliving things do not grow. They do not need food, water, or air.

Directions: Cut and paste the pictures onto the correct boxes.

Name:_____

Life Science

The Growing Plant

All plants grow and change. A plant begins its life inside of a seed. Soon it sprouts from the seed and emerges from the soil as a seedling. Finally, the seedling will grow and change into a full grown plant!

Directions: Cut and paste the pictures in the correct order.
